

Building a New Model for Connected, Whole-Person Health

Our driving mission is to create affordable, accessible, whole-person health care for all.

We work with community partners, patients and providers throughout Pierce County to transform multisector systems of health. We seek to increase savings, eliminate health gaps, and improve health equity for the residents of our diverse region.

COMMUNITY-BASED CARE COORDINATION SERVICES

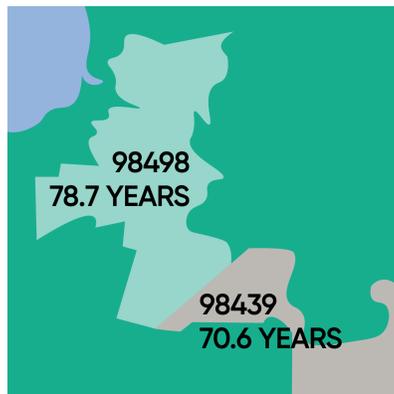

Elevate Health provides a centralized community hub for clients, providers, community partners and community-based organizations. We offer referrals for medical, behavioral, and social services. We aim to address Social Determinants of Health (SDOH), improving health equity and whole-person health for Pierce County.

TACOMA

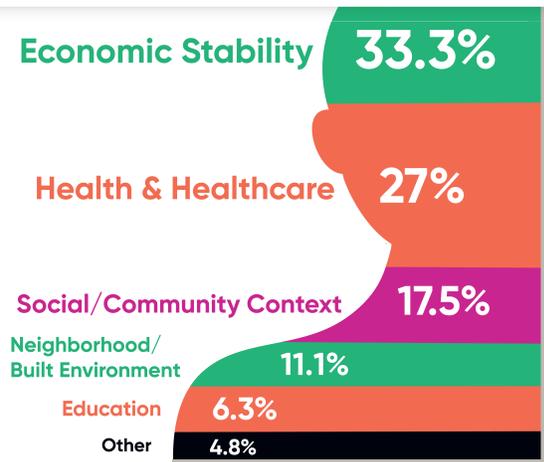

LAKESWOOD

In Pierce County, neighbors living less than a mile apart can have up to **8 years** difference in life expectancy.

Health isn't just going to the doctor. **80%** of health outcomes are determined by Social Determinants of Health:

INNOVATIONS AND PARTNERSHIPS

Bridge of Hope, the first pediatric integration model in Washington State, is an Elevate Health-led innovation between HopeSparks and Pediatrics Northwest. This innovation, funded by Elevate Health, coordinated appointments for **65K+** patients **2 weeks faster** than traditional health models, keeping **100%** of patients out of the emergency department.

Our work implementing **Trueblood** included assessing and facilitating community support plans from 2018 to 2021 for nearly **700** Pierce County individuals living with mental illness. Elevate Health helps coordinate training events for behavioral health, courts, law enforcement and healthcare provider communities.

Elevate Health invested **\$240,000** in grant funds to train **7** Emergency Medical Services organizations in Pierce County through the **Mobile Community Intervention Response Team (MCIRT)**. MCIRT serves roughly **200** individuals per month, improving the lives of those affected by mental illness, substance abuse, and/or unmet medical needs.

Elevate Health aims to reduce **Potentially Preventable Hospitalizations** in the 29th legislative district by working in close partnership with the **Tacoma - Pierce County Health Department**.

ONEPIERCE COMMUNITY RESILIENCY FUND

OnePierce is the investment arm of Elevate Health. With the support of funders, OnePierce distributes loans, grants and innovation funds to help community organizations bridge health equity gaps in Pierce County. **Our impact to date:**
