2022

# *Dear Friends & Supporters of OnePierce,*

We ended 2022 with a milestone:  
*Over **\$11 million** invested in Pierce County.*

OnePierce began as Elevate Health's commitment to invest in social determinants of health and health equity. It has received funding from Elevate Health, Pierce County, Greater Tacoma Community Foundation, the local philanthropic community, and private healthcare systems. This support has enabled it to braid resources into innovative funding models for a resilient community. OnePierce has achieved its aims thanks to the network of Pierce County organizations that believe in and work towards its vision: every person in the communities we serve lives a full, healthy, and vibrant life.

We've now had three full years of operations and invested over \$11 million in our communities. We cherish this milestone as a symbol of our great commitment to the many ways we can improve the lives of Pierce County residents, and we look forward to the future.

Sincerely,

**Lauren Fulton**

Executive Director, OnePierce

*Over \$11 million  
invested in Pierce County*

**Over 40,000 Residents Supported**

- 1. Grants:**  
Non-repayable funding to community organizations
- 2. Community Loans:**  
Repayable funding with low or no interest
- 3. Health Innovations Funds:**  
Creatively structured funding and support for the work of Elevate Health and partners addressing systemic challenges

**OnePierce invests in any social determinants of health that improve whole-person health and health equity.**

## **PRIORITIES FOR 2022 •**

### **HOUSING STABILITY:**

All people in Pierce County will have safe, stable, and affordable housing.

### **BEHAVIORAL**

**HEALTH:** All people in Pierce County will have equitable access to services supporting a healthy lifestyle.

### **WORKFORCE**

**DEVELOPMENT:** Pierce County will have a robust community of health workers who reflect the communities they serve.

### **HEALTHY FOOD**

**ACCESS:** All people in Pierce County will have access to healthy foods and support for healthy food choices.

## For Community Organizations

OnePierce maintains products that are flexible and priced to address local needs. It is a nimble funder with the ability to adapt to new circumstances and to offer technical assistance. It works in genuine partnership with its borrowers and grantees.

## For Funders

OnePierce occupies a unique position in the community with its lending, grantmaking, and healthcare experience. It increases the impact of its contributions by leveraging other sources of funding to extend its reach, and it is guided by an engaged, multi-sector Board of Directors key to its success.

## *Our Value*

OnePierce offers loans, grants, and innovation funds to help community organizations provide whole-person health and bridge health equity gaps in Pierce County.
