

Connect Pierce

COMMUNITY HUB

A Service of ElevateHealth

We Can Connect You

Connect Pierce is a free community care hub that helps individuals and families across Pierce County access the health and social services they need. We match people with dedicated community-based workers who provide personalized, one-on-one support, guiding them through available resources and helping overcome barriers to care.

How Connect Pierce works

Trusted Guides

Our diverse network of more than 80 community-based workers speak 16+ languages, live and work across Pierce County, and often share lived experiences with the clients they serve.

The Care You Need

In the past year, we've helped folks access housing, food, healthcare services, legal support, transportation, childcare, employment and education resources, and more!

**Partner roster as of July 2026*

"My role is basically to receive and intake clients who need social services. I like to keep it face-to-face, so it's more personal."

Leutu Fa'alevao
Community Based Worker
Pacific Islander Health Alliance

"Our intention is to help people as much as possible. All day, we are informing people, step-by-step, what they need to do."

Olga Piddubna,
Executive Director
Tacoma Slavic Association

"Many of our community members have health problems related to social needs. We try to connect them to services so they can improve their health and wellbeing."

Bernard Nyakiba
Program Manager
Wakulima USA
